

**Elisabeth Schültke**  
**Clinical Assistant Professor, Department of Surgery**  
**Research Associate, Department of Anatomy and Cell Biology**  
**University of Saskatchewan**

Dr. Schültke received a diploma and doctoral degree (Dr. Medicine) in 1991 from Humboldt University Berlin and Dresden Medical Academy. She trained as neurosurgeon in Dresden, Germany, followed by a one-year Neuropathology Fellowship at the University of Washington in Seattle, USA.

Dr. Schültke came to Saskatoon in the summer of 2000 as a Clinical Research Fellow to work with Drs. Bernhard Juurlink and Robert Griebel at the University of Saskatchewan. Her research is focused on neurotrauma and testing synchrotron techniques for suitability in medical diagnostic and therapy.

Since May 2006, Dr. Schültke has worked as Clinical Assistant Professor with the Department of Surgery and Research Associate with the Department of Anatomy and Cell Biology at the University of Saskatchewan.
