

# New Approaches To Greener Mining

A Preconference Workshop  
Canadian Institute of Mining, 2010 Annual General Meeting  
*Organized by The Canadian Light Source*

## Sunday May 9<sup>th</sup>, 2010

C.I.M. Vancouver British Columbia

### Invited Speakers include:

- Louise Laverdure,  
Natural Resources Canada
- Jeff Warner,  
Canadian Light Source
- Lesley Warren,  
McMaster University
- Heather Jamieson,  
Queen's University
- Alan Martin,  
Lorax Environmental Services
- Bruce Dudley,  
Delphi Group

- Increasingly stringent regulatory requirements, worker safety and consumer demand require that the mining industry explore the use of advanced characterization techniques at all stages of the resource extraction cycle.

### Topics

- Regulatory environment and green mining initiatives
- Advanced analytical techniques to characterize mine tailings
- New methods to remediate old mine sites
